

MONDAY ♦ 2:00pm
GENERAL SESSION

Glen Millar Goes Wild

Just as much fun as running
with the bulls...and
marginally safer

GLEN MILLAR

PowerPoint is the tool of choice for millions of users world-wide to visualize information and interact with their audiences. Glen Millar has used PowerPoint to design and deliver hundreds of presentations, extracting countless graphic and animations effects along the way. In this session, Glen draws on real-world examples to demonstrate the power of PowerPoint to visualize information and educate with animations. And then? Well, let's just turn him loose! Topics to include...um, well, as always with Glen, we're never sure...

This session is for all patrons.

Monday

2:00pm
