Integrating your work with
Facebook, LinkedIn, and Twitter

RICHARD HARRINGTON

You have created a great presentation...now share it! In this session you'll learn several ways to post a presentation to the web. We will explore built-in tools for converting your slideshow to the web as well as specialized plug-ins and websites that make sharing easy. Topics will include:

- Easy file-sharing options to exchange PowerPoint files with others
- Using Slideshare to post to Twitter and Facebook
- Discovering practical recording techniques for audio from your presentations
- Synchronizing audio and slides with slideshare.com

This session is for those who want to share slides as both downloads and with an embeddable player.
